Thanks again for all you have done. Your bible study is outstanding. I used the section on the interpretation of Scripture and it was one of the best sessions we've had. It is precise, to the point, and cites the important documents to help them get a true picture of Catholic biblical study. What I like about it is it is easy for me to follow the notes. I'm pretty busy, and I don't have the time each week to do the research I would like to do. I'm able to look over your outline in 45 minutes and prepare a lesson. Also good Catholic bible studies usually cost money. My budget is nothing. As it is I get bibles and other resources usually out of my personal budget. Your bible study enables me to give them good solid teaching in a structured format, which I wouldn't normally be able to finance.
